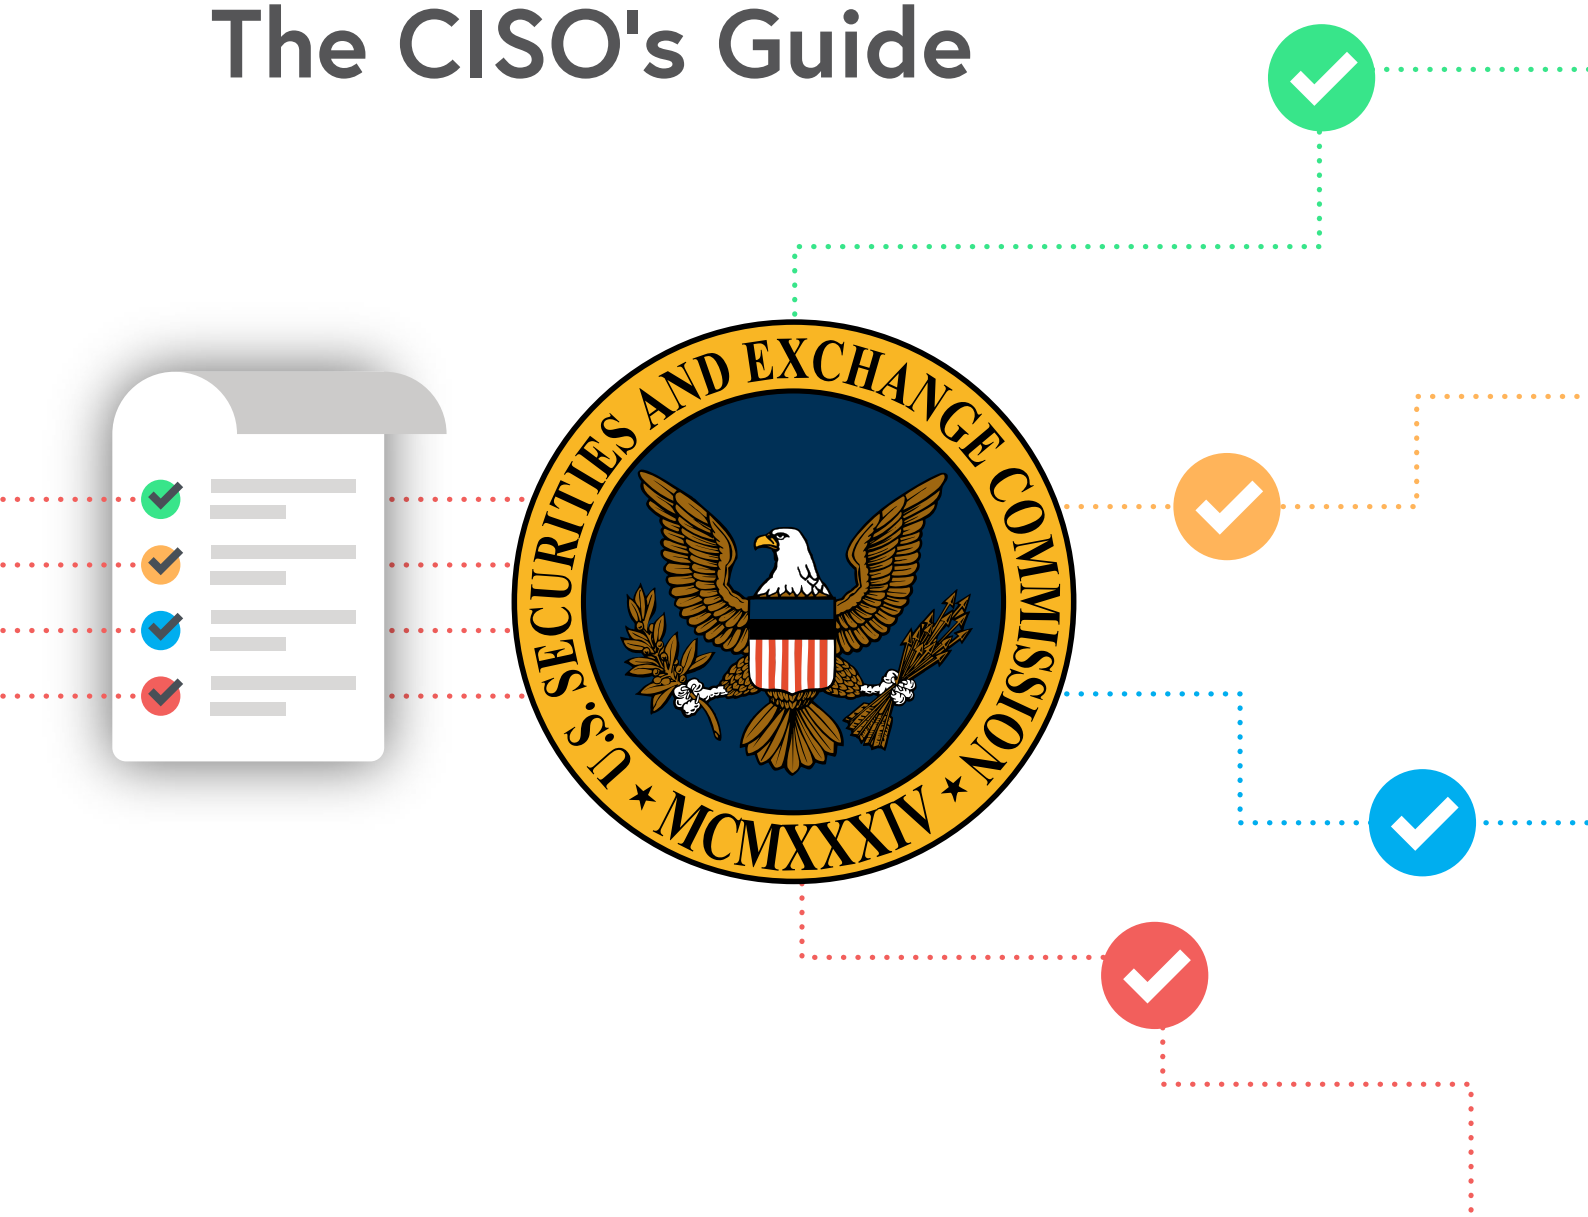
# 2024 SEC Cybersecurity Regulations

## The CISO's Guide

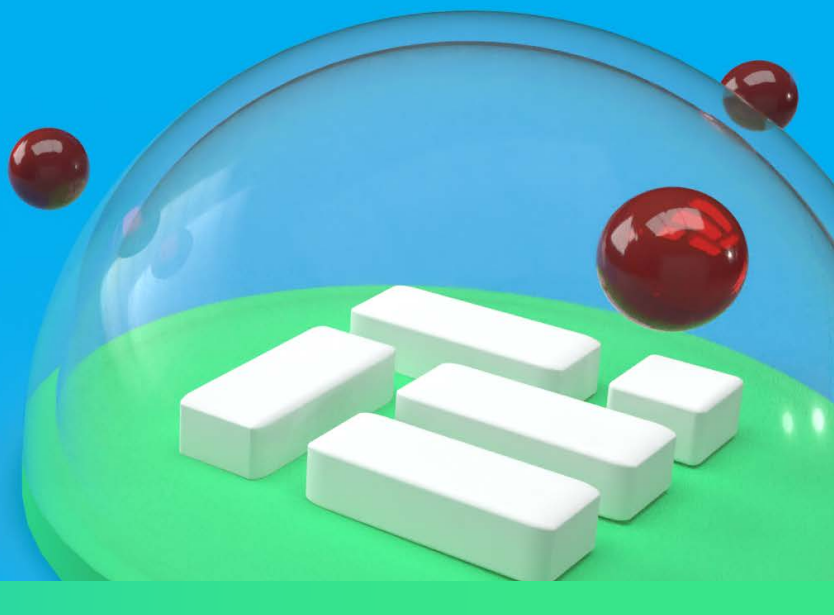


# Introduction

As of December 2023, the U.S. Securities and Exchange Commission (SEC) requires all publicly traded companies to adhere to a new set of regulations regarding cybersecurity.

The new regulations focus on disclosure of material cybersecurity incidents, and on an annual disclosure of cybersecurity risk management, strategy, and governance.

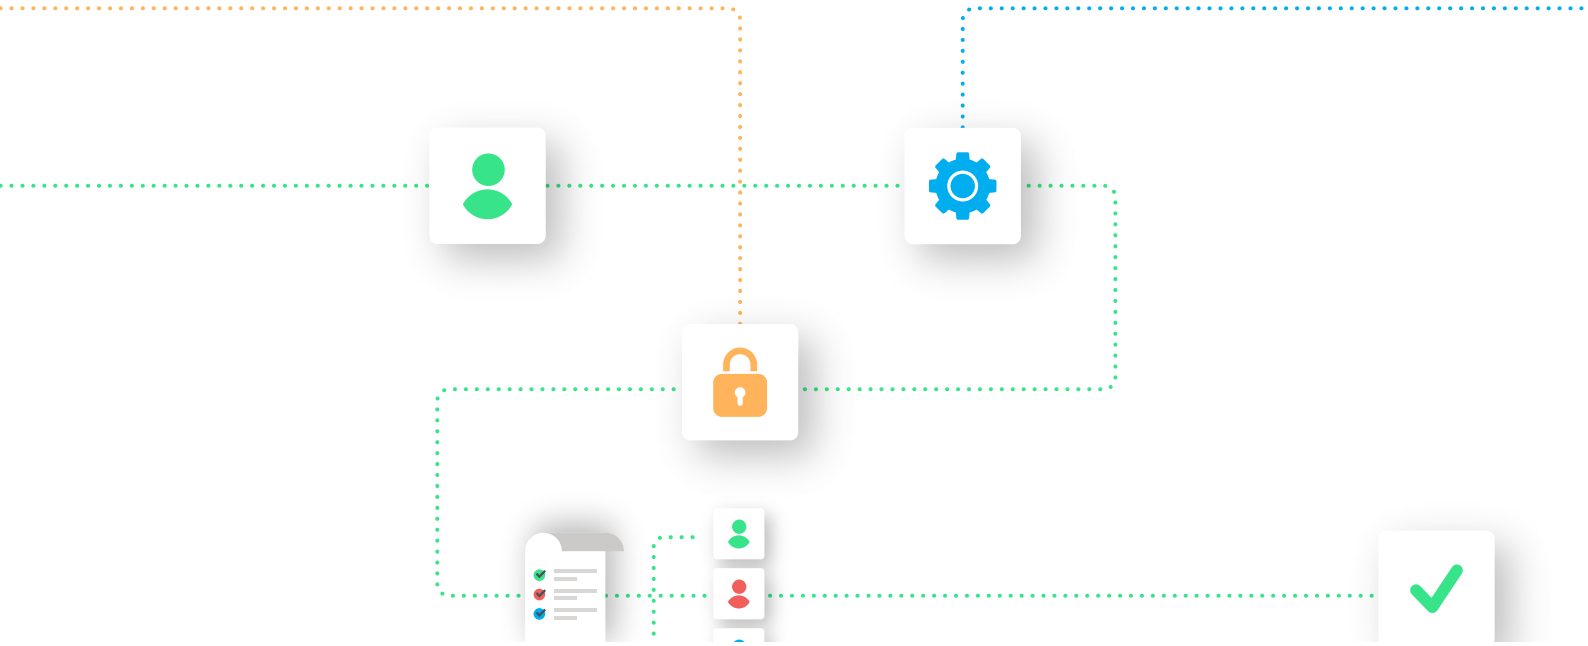
This guide contains guidelines for cybersecurity professionals that will help you get ready for these new requirements.



# Update your Cybersecurity Strategy

1

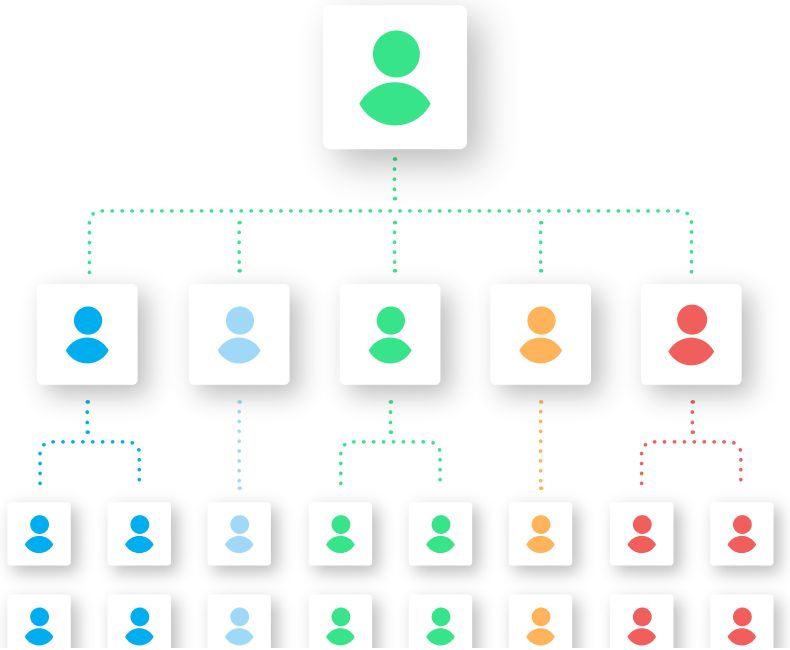
Given the SEC's emphasis, revisit and refresh your cybersecurity strategy. Align it with industry best practices and ensure it's not just a compliance checkbox but a robust framework that safeguards your organization.



# Governance Review

2

Take a deep dive into your governance structure. Ensure that roles and responsibilities are clearly defined, and there's a transparent communication channel between cybersecurity teams and leadership.



# Documentation is Key

3

The SEC is not just looking for actions but documentation. Ensure that your cybersecurity risk management, strategy, and governance procedures are well-documented and ready for higher scrutiny.

# Educate and Empower

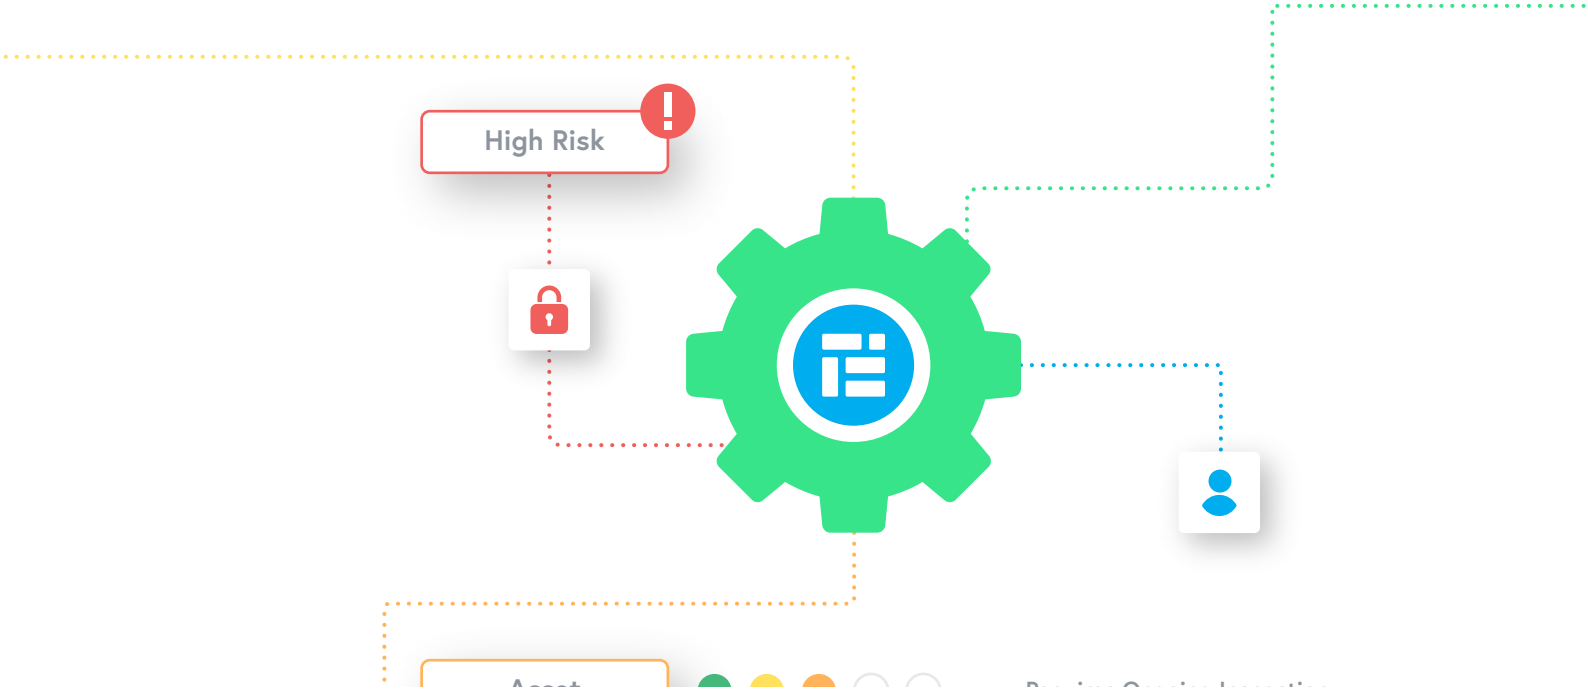
4

Leverage this opportunity to educate your organization's leadership, employees, and stakeholders. Empower them to be proactive in recognizing and reporting potential cybersecurity risks.

# Put Your Cybe-rsecurity Risk and Governance on Autopilot

5

New regulatory frameworks can be a lot of work, but there is no need for you to do it all manually. A smart Cyber GRC Management Platform can automate the new processes the SEC requires



# Be Ahead of the Curve: Get Ready for the New Regulations Today:

These new requirements by the SEC can seem overwhelming, but you don't have to face them on your own.
Here at Commugen we empower 100+ enterprises with our Cyber GRC Automation Platform, that saves security teams precious time and effort.
